

Students and Faculty

I have had cold-like symptoms or a fever of 37.5 ° C or more, for 4 days or more and/or extreme fatigue or breathlessness.

OR

I have had the symptoms of a cold or fever of 37.5 ° C or more and/or extreme fatigue or breathlessness for about 2 days and I am:

- Elderly (defined by WHO as persons 65 and over);
- Diabetic;
- Have a history of heart failure;
- Have respiratory disease (COPD, etc.);
- Am on dialysis;
- Am receiving immunosuppressant treatment;
- Am on chemotherapy.

Note: Call the Center below as soon as possible if you may be pregnant.

Kyoto:
Center for Returnees and Persons Exposed to Infected Persons
(kikokusha/sesshokusha gairai 帰国者・接触者外来)
Hours: 24 hours a day, weekdays, Saturdays, Sundays, and holidays
Phone number: 075-414-4726

I **suspect** I have a COVID19 infection.

I do **not** suspect I have a COVID19 infection.

Contact the Center above, go to the clinic they recommend and follow their instructions.

Rest at home until you have completely recovered.

Follow the advice of your physician and email a report on your condition to the Student Affairs Office
stu_seikatu@jim.kit.ac.jp

Return to the university only after you have completely recovered.

Following the advice of your physician, the KIT Health Service Center physician will determine when you may return to the university.

Return to the university
